GENERAL NEWS.

John J. Van Bergen, a millionaire merchant of San Francisco, died recently while in Germany on a visit, at the age of 88.

The Standard Oil steamer Atlas is en route from New York to San Francisco via Cape Horn, bearing oil and having in tow an oil barge. The two vessels carry 20,000 barrels of oil.

David Bricker died recently at Center Mills, Pa., aged 94 years, in the same room in which he was born, and in the house that had been his home without intermission all his life.

Louis Semones, at Chicago, has scored 300 at bowling, with 12 strikes. This is the second time in the history of bowling in this country that this score has been reached with 12 strikes.

Forty representatives of all the grape and wine-growing districts of the United States are in convention in New York. It is claimed that these 40 men represent \$100,000,000 invested capital.

In New York recently, a copy of the first edition of Tennyson's poems with a 12-line autograph poem by Thackeray on a fly-leaf, sold for \$600. At the same sale, a lock of Thackeray's hair sold for \$16.50.

The new cathedral at Baker City is to cost \$100,000. When it is completed the Catholic church will own property in that place to the value of \$250,000 or more than in any other locality in Oregon outside of Portland.

Never before in many years has there been so many calls upon the resources of New York's charitable institutions as this fall. Forty per cent more unemployed men were helped during November last than during November 1903.

NORTHWEST NEWS.

The white section hands on the Southern Pacific in the neighborhood of Grant's Pass, are on a strike, and the company is importing Japanese to take their places.

A big kick is being made in Portland because contractors get 45 cents per cubic yard for removing dirt for the city, while they only pay 20 cents for having the work done.

Alex Orlet and H. H. Metzger are in custody at Neilhart, Mon., charged with shooting and killing Homer E. Ward, the day before Thanksgiving, the motive being robbery. Ward lived in a cabin alone.

James Hall was convicted the 7th instant at Baker City of horsestealing. He participated in stealing and shipping east a carload of Grant county horses. John Lang was acquitted of the same charge.

B. B. Barnes, an old resident near Corvallis, was working at the bottom of a 10-foot ditch December 6, when a sudden cave-in buried him three feet deep. He was suffocated before he could be taken out, 45 minutes later.

RAILROAD BY THE FARMERS

BUILD FROM CONNELL TO FLETCHER, WASH.

Company Is Made Up Principally of Spokane County People, and the Road Will Be Thirty-five Miles in Length—Company Has a Capital Stock of \$200,000, and Is Composed Entirely of Wheat Producers—Has Advanced Land Values.

The first actual steps toward the construction of a farmers' railroad to be made in the state of Washington is now being made by the Farmers' Grain & Supply company, of Spokane and Cheney, which association of farmers proposes to build a branch line of road 35 miles in length, from Connell to Fletcher, Wash., for the purpose of tapping a rich wheat district not now reached by any railroad system and which produces a large area of wheat every year.

The farmers have organized a company with a capital stock of \$200,000, divided into \$100 shares. The proposed road will be owned exclusively by the wheat producers, so it cannot be made a part of the competing lines of the country, and raise freight rates on them.

Fully one-half of the stock has already been subscribed by farmers whose land is adjacent to the line, and solicitors are now at work disposing of the remainder of the stock. As soon as the stock is sold and the road assured, warehouses will be built at different places along the line, a train of cars and an engine will be ordered, and the grade work will be commenced.

The district to be tapped by the proposed line is known as the Rattlesnake Flats, and is one of the richest small territories in the inland Empire.

At the present time the wheat is hauled from 15 to 25 miles by wagon and the output of the district is thus reduced by the poor transportation facilities. Land prices have advanced 40 per cent since the company was formed, and many buyers are in the country.

FIRST-CLASS MINSTRELS.

Haverly's Performance Witnessed by a Large Audience.

Standing room only, and barely enough of that, was the condition of the Frazier theater last night with Haverly's minstrels on the bills. It was a very funny show. Of course, the inimitable Billy Van stands at the head of the mirth-provoking aggregation. But there are others who can start a laugh. For instance, there are Clayton, Jenkins and Jasper. Now Jasper is only a long-eared burro, but he knows his business when it comes to impersonating the royal Arabian charger in the burlesque circus.

Jimmy Wall and Eddie Mazier as funny men must not be overlooked. The solo parts of the entertainment were excellent, and the dancing was novel.

CAUSE OF PNEUMONIA.

Steam Heat May Be Responsible in a Large Measure.

New York, Dec. 9.—One of the questions now being investigated by the commission on pneumonia, of which Dr. Thomas Darlington, president of the board of health, is chairman, is whether the luxurious steam-heated apartment of modern times is not responsible in a measure for the increase in the ravages of the disease.

During the past month there were 682 deaths from pneumonia in Greater New York. Of these, 461 were in Manhattan and the Bronx and 221 in the boroughs of Brooklyn, Queens and Richmond. By far the greater number of these deaths were in what are known as apartment house districts.

Physicians who have been interviewed on the subject of "the modern flat as a cause of pneumonia," give divergent opinions, but nearly all of them state that the tendency to overheating the sleeping apartment and lack of ventilation undoubtedly are increasing the inroads of the disease.

AUTOMOBILE SHOW.

Largest and Most Elaborate Exhibit Ever Arranged.

Paris, Dec. 9.—The annual automobile show which opened today in the Grand Palais far exceeds the former exhibitions both in the number and scope of its exhibits. One novel feature is a series of installations of hotel bedrooms in the manner they should be arranged, according to the laws of hygiene, for comfort and simplicity. The Automobile Club and the Touring Club are the main exponents of this reform.

In the main exhibition hall are shown the latest models of automobiles of all types and designed for all purposes. There is also an elaborate display of automobile sundries and accessories. The exhibition will continue until Christmas.

Notice to Contractors.

Sealed proposals will be received at the office of the undersigned until Saturday, December 10, 5 p. m., for the erection and completion of a frame residence for S. S. Butler. A certified check for one hundred dollars to accompany each bid to be forfeited to the owner should the successful bidder fail to enter into bond within five days after he has been awarded the contract. Plans and specifications can be seen at the office of the architect, room 12, Judd building.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost sense of taste and smell. The sufferer who is tired of vain experiments should use Cream Balm. Druggists sell it for 50 cents. Ely Brothers, 56 Warren street, New York, will mail it.

Torpedoes were invented by an American in 1777.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
